NeTLIMS Selected by Quest Diagnostics for Lab Operations in India

NeTLIMS NJ LLC, a provider of laboratory information systems (LIS), announces that Quest Diagnostics has selected its integrated product suite, AutoLims, to power Quest Diagnostics' international laboratories operations in India.

After an extensive research and selection process that encompassed many LIS solutions in the marketplace, Quest Diagnostics signed an agreement licensing AutoLims, NeTLIMS' flagship product. The comprehensive AutoLims suite maximizes clinical laboratory productivity, efficiency and profitability through technological excellence. AutoLims breadth of features, ease-of-use and customization options combined with NeTLIMS' outstanding customer service, meet a wide range of client needs.
