## NeTLIMS Launches Integrated Mobile Phlebotomy Solution

*NeTLIMS NJ, LLC, a provider of advanced Laboratory Information Systems (LIS), today announced the launch of AutoMobile, the latest addition to the company's fully integrated AutoLims product suite.*

NeTLIMS NJ, LLC, a provider of advanced Laboratory Information Systems (LIS), today announced the launch of AutoMobile, the latest addition to the company's fully integrated AutoLims product suite.

AutoMobile expands support of on-the-road and in-hospital phlebotomy. The solution provides phlebotomists with remote access, allowing them to be notified of requisitions to be drawn and provide feedback and pickup notifications, all in real-time. Based on standard PDA hardware, AutoMobile uses computerized instructions, positive patient identification and sample label generation or reading of pre-tagged tubes to eliminate drawing errors. In addition, through the use of cell phone connectivity or wireless networks, AutoMobile logs all bi-directional updates into the AutoLims system, giving lab managers a new level of control and providing laboratory clients with a new, innovative level of service.

"This solution allows healthcare organizations to efficiently manage their phlebotomy teams in the field in real time," explained Gonen Ziv, COO of NeTLIMS. "AutoMobile shows how NeTLIMS once again provides cutting edge technology and unparalleled customizability for any size laboratory."

NeTLIMS' AutoLims product suite maximizes clinical laboratory productivity, efficiency and profitability through

technological superiority, accuracy, ease of use and careful attention to customer needs. AutoLims' advanced architecture and design includes multi-tier technology, multiple platforms support (all variants of Windows clients, UNIX/Windows Servers), multiple database support (Oracle, MSSQL, Informix, Cache), multiple order entry method support (screen, barcode, OMR, ASCII files), multi-user technology, browser access to lab results and flexible color XML/XSL reporting.

About NeTLIMS NJ, LLC  
NeTLIMS develops, markets and supports the AutoLims product suite. Since 1996, AutoLims has been powering hundreds of medium to large clinical laboratories in hospitals and commercial laboratories worldwide. NeTLIMS customers include the top New York City hospitals, HMOs including Clalit - the world's second largest HMO, and commercial labs such as Quest Diagnostics. Simply Powerful - AutoLims is lightning fast and extremely intuitive. AutoLims supports the complete needs of all types of clinical labs, from an individual lab to a network of laboratories. A perfect combination of cutting edge technology and unparalleled customizability and extendibility allows AutoLims to provide state of the art solutions to all disciplines inside the lab and for all stages of the testing process.
